

INSTRUCTIONS

Instructions for configuring Eduroam connection - Android system

Go to your device's Wi-Fi settings. From the list of available Wi-Fi networks, select "eduroam"

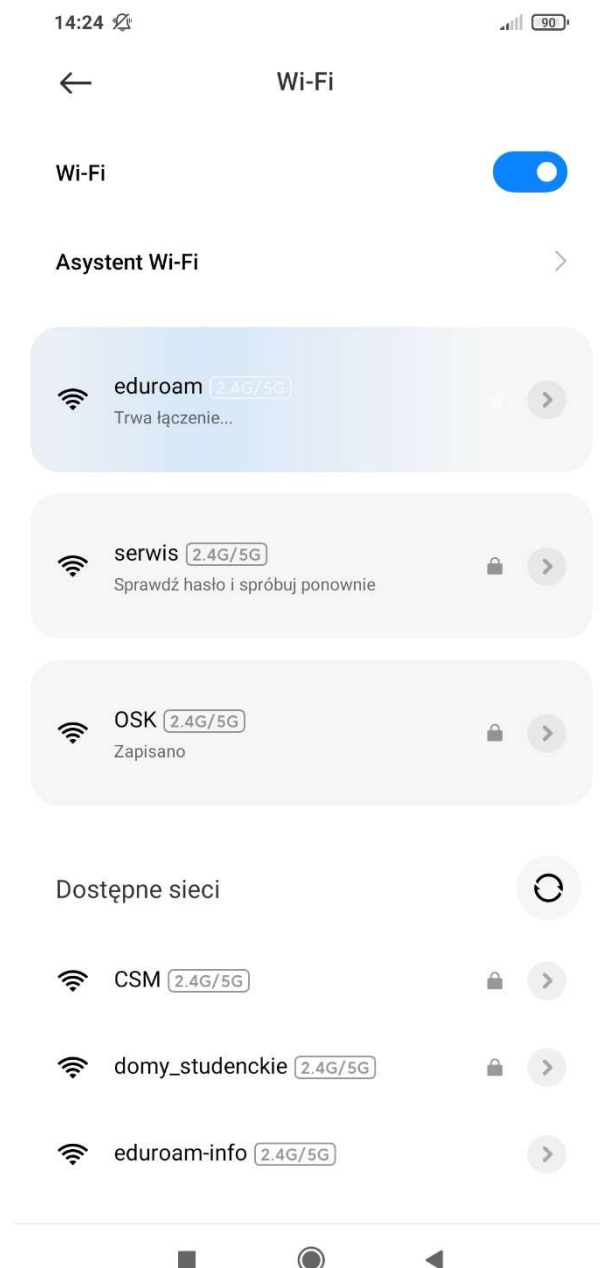

In the authorization window, enter the university email address in the form - name.surname@umw.edu.pl or in the case of a student - name.surname@student.umw.edu.pl and the password set during registration in the CSA system. Click the "advanced options" button.

The screenshot shows an Android phone's Wi-Fi settings. At the top, the status bar shows the time 14:23, signal strength, Wi-Fi icon, and battery level at 90%. The title bar says "Wi-Fi" with a back arrow. Below, the "Wi-Fi" toggle is turned on. Under "Asystent Wi-Fi", there are two network entries: "OSK [2.4G/5G]" with a lock icon and a right arrow, and "serwis [2.4G/5G]" with a lock icon and a right arrow. Below these is a section for "Dostępne sieci" (Available networks) with a refresh icon. At the bottom, there is an "eduroam" section with a text input field containing "imie.nazwisko@umw.edu.pl", a password input field with dots and an eye icon, and two buttons: "Opcje zaawansowane" (Advanced options) and "Połącz" (Connect). The phone's navigation bar is visible at the very bottom.

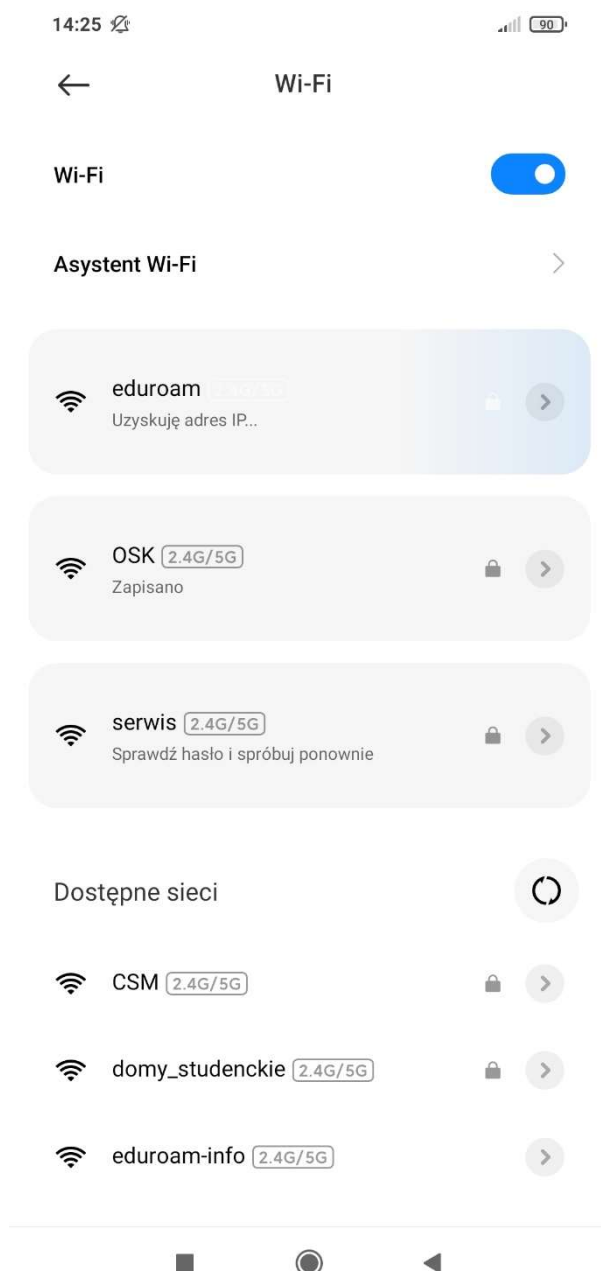

The connection setup should look like the picture below. Then click the "Connect" button.

The screenshot shows an Android phone's Wi-Fi settings screen. At the top, the status bar shows the time 14:23, signal strength, Wi-Fi icon, and battery level at 90%. The screen title is "Wi-Fi". Below the title, there is a toggle switch for "Wi-Fi" which is turned on. Underneath, there is a section for "Assistent Wi-Fi" with a right arrow. The main part of the screen is for the "eduroam" network. It lists several settings: "Metoda EAP" set to "TTLS", "Uwierzytelnianie..." set to "PAP", "Certyfikat urzędu..." with a note "Nie sprawdzaj popraw.." and a right arrow, and "Prywatność" set to "Użyj urządzenia MAC" with a right arrow. Below these, there are three input fields: the first contains "imie.nazwisko@umw.edu.pl", the second contains "anonymous@umw.edu.pl" and is highlighted with a blue border, and the third contains a series of dots for a password, with an eye icon to its right. At the bottom, there are two buttons: "Opcje proste" (Simple options) and "Połącz" (Connect). The "Połącz" button is blue and highlighted. The bottom of the screen shows the standard Android navigation bar with a square, circle, and triangle icon.

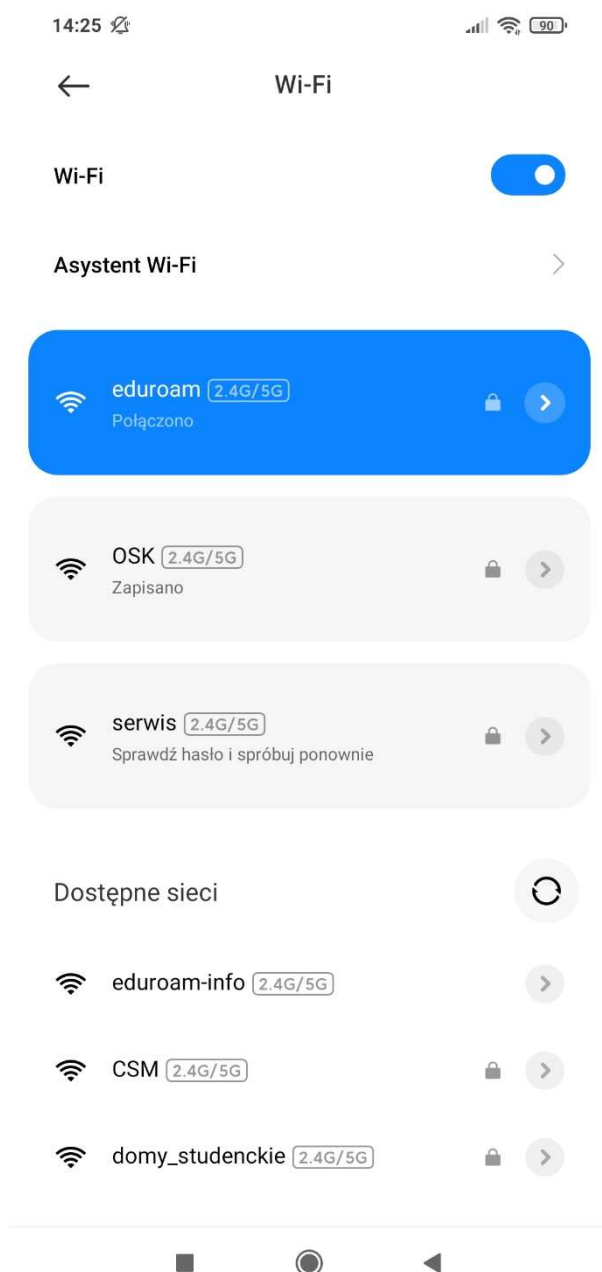

Attempting to connect.

If you have performed the configuration correctly, you should see information about obtaining an IP address.

After obtaining the IP address, access to the network will be granted.

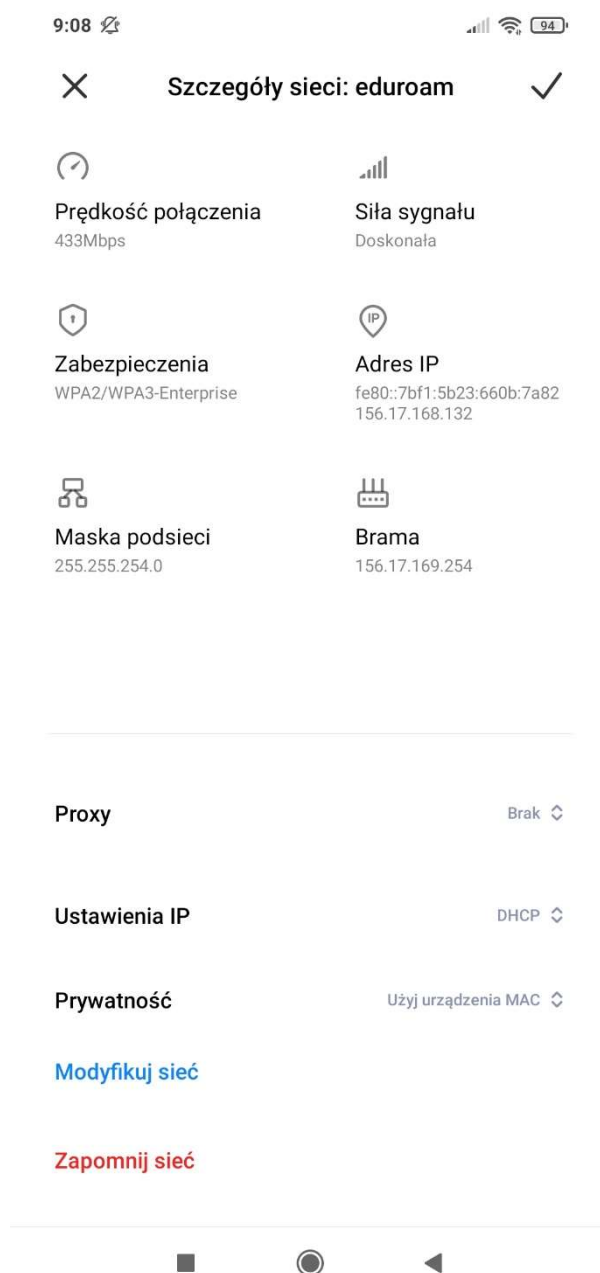

Connection reconfiguration

In order to connect with new credentials, remove the remembered network named eduroam from memory on the mobile device. To do this, go to the device's Wi-Fi settings and find the "eduroam" network in the list of available networks or saved networks.

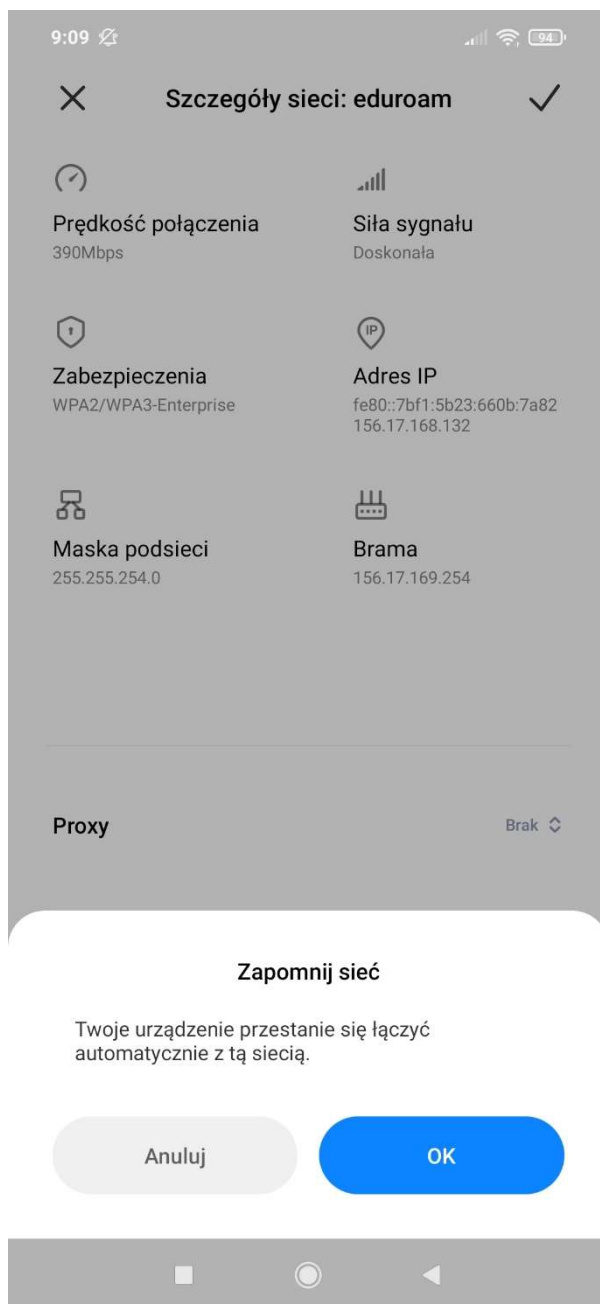

There may be differences depending on the device model.

Then you need to enter the details of the "eduroam" network and find the "Forget network" option.

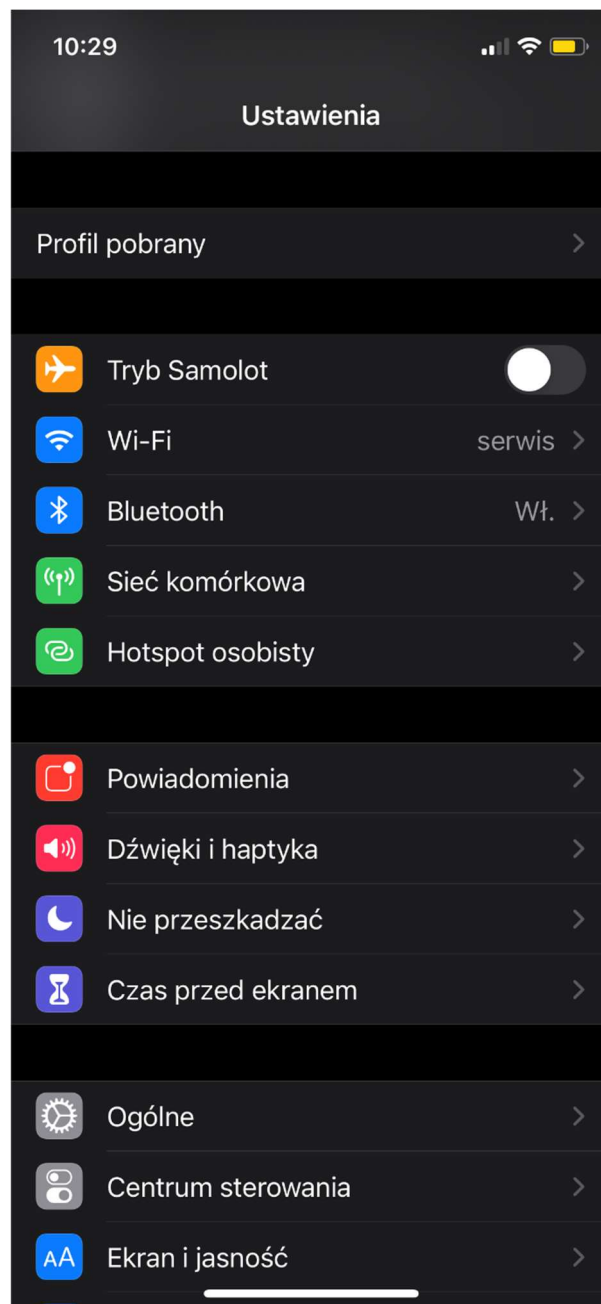

You will be informed that your device will stop automatically connecting to this network. Click "OK".

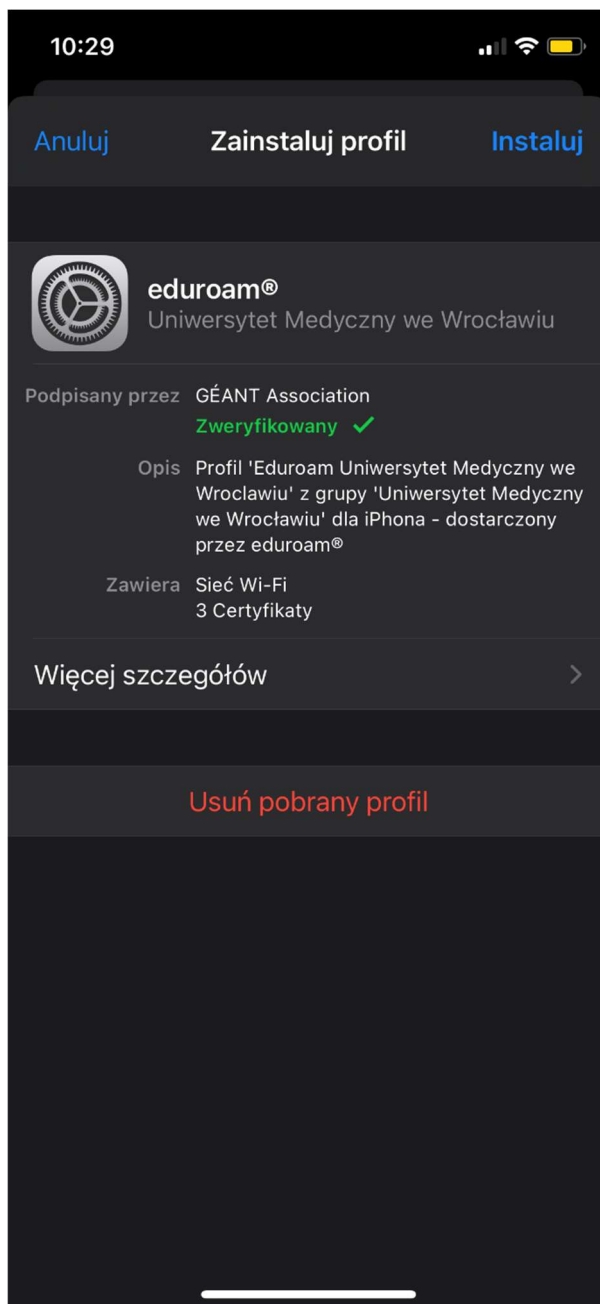

Then you reconnect to the "eduroam" network as above.

Instructions for configuring Eduroam connection – iOS system

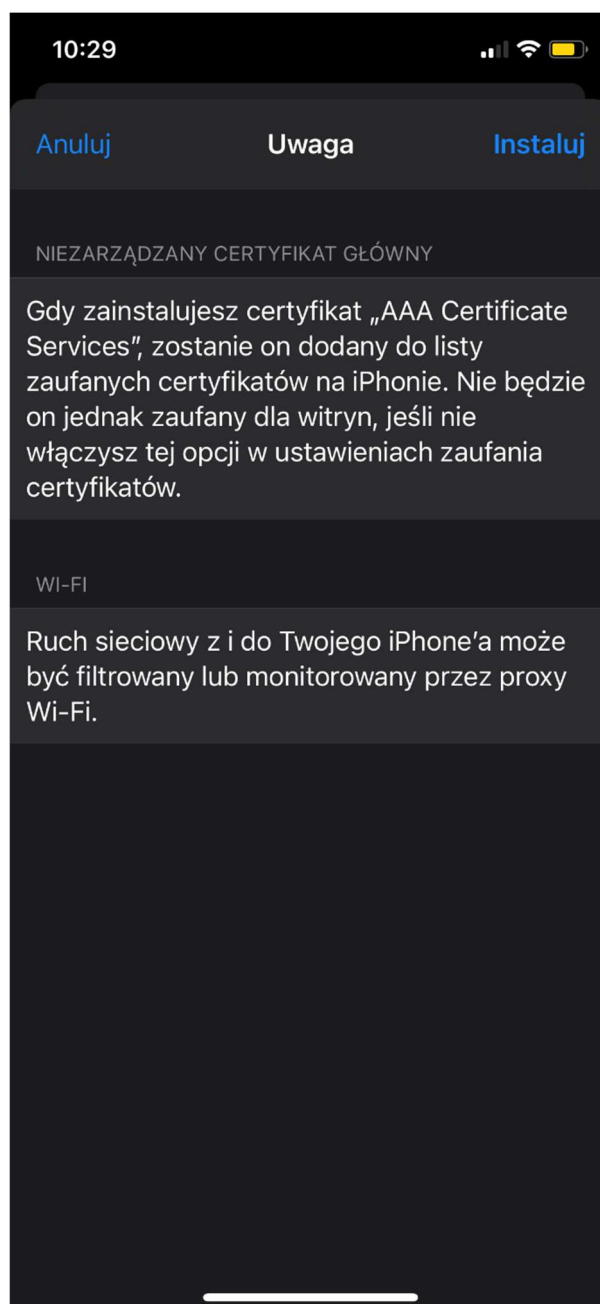

Download the installer from the website: <https://cat.eduroam.org/> First, go to the settings. At the top of the screen should be the information "Profile downloaded" - Click on it..

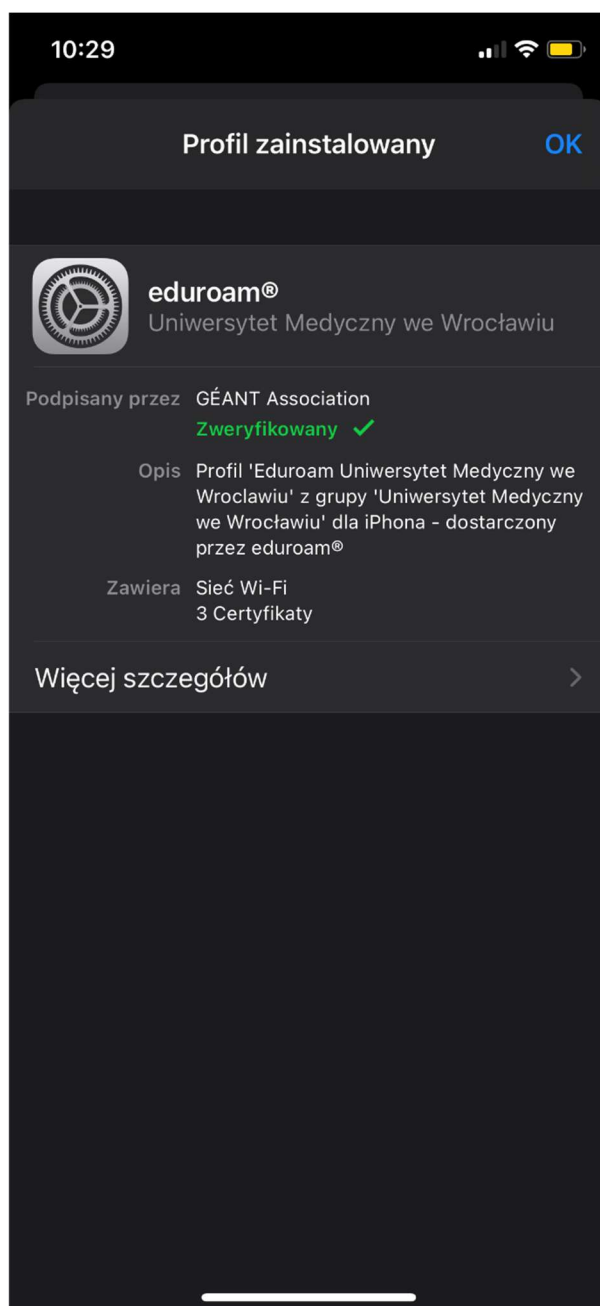

After entering, you will see the "eduroam" profile to be installed, click "Install" in the upper right corner.

Click „Install” again.

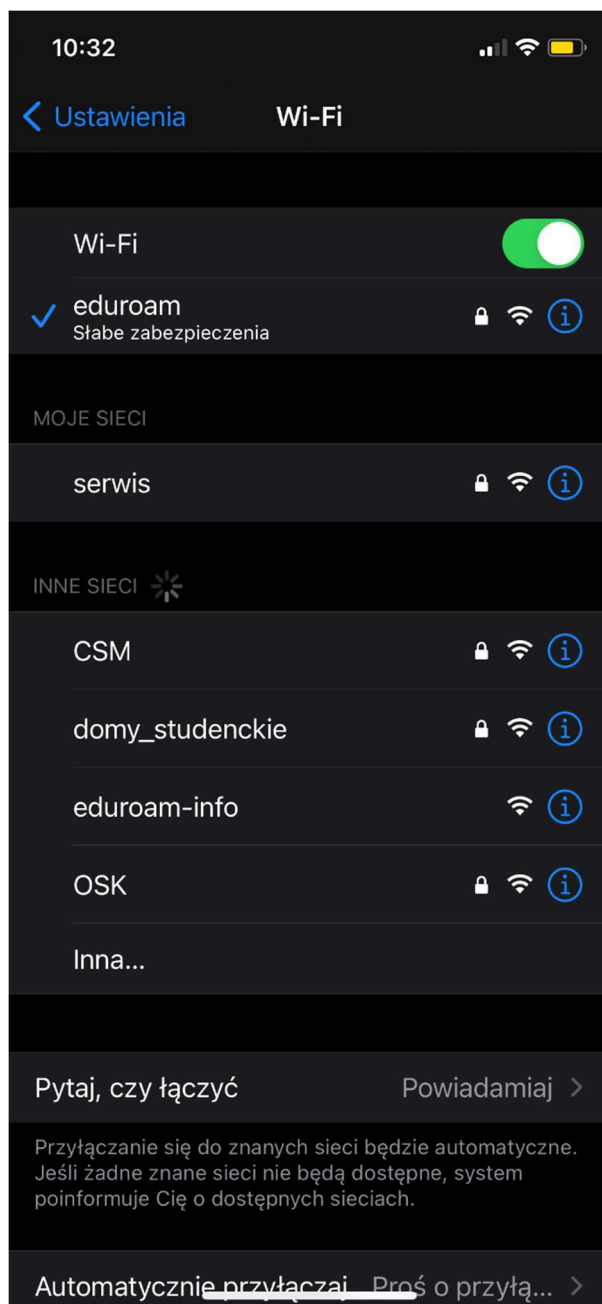

When the profile is installed, click "OK"

Now, from the list of available Wi-Fi networks, select the "eduroam" network and log in by entering the following: in the user field, enter the university email address in the form - name.surname@umw.edu.pl or in the case of a student - name.surname@student.umw.edu.pl and the password set during registration in the CSA system. Click the "Join" button.

A screenshot of an iPhone screen displaying the eduroam login interface. At the top, the status bar shows the time 10:30, signal strength, Wi-Fi, and battery icons. The main screen has a dark background with white text. At the top, it says "Podaj hasło sieci „eduroam”". Below this are three buttons: "Anuluj" (blue), "Podaj hasło" (white), and "Przyłącz się" (blue). There are two input fields: "Użytkownik" with the text "imie.nazwisko@umw.edu.pl" and "Hasło". Below the fields, there is a warning message: "Zabezpieczenia WEP nie są uznawane za wystarczające. Jeśli to Twoja sieć Wi-Fi, skonfiguruj router tak, aby używał zabezpieczeń WPA2 (AES) lub WPA3." The bottom of the screen shows the home indicator bar.

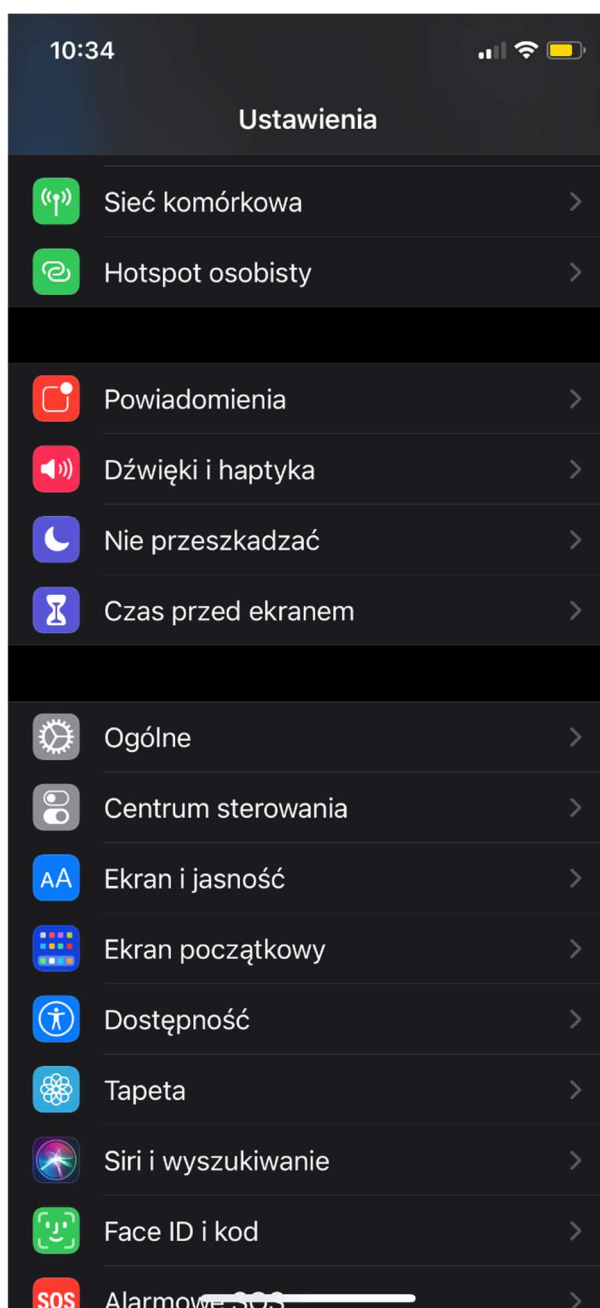

After obtaining the IP address, access to the network will be granted.

Connection reconfiguration

Before deleting the configuration, download the installer from the website: <https://cat.eduroam.org/> In order to connect to a new domain and new credentials, remove the saved network named eduroam from memory on your mobile device. To do this, go to your device's settings and look for "General" in the list.

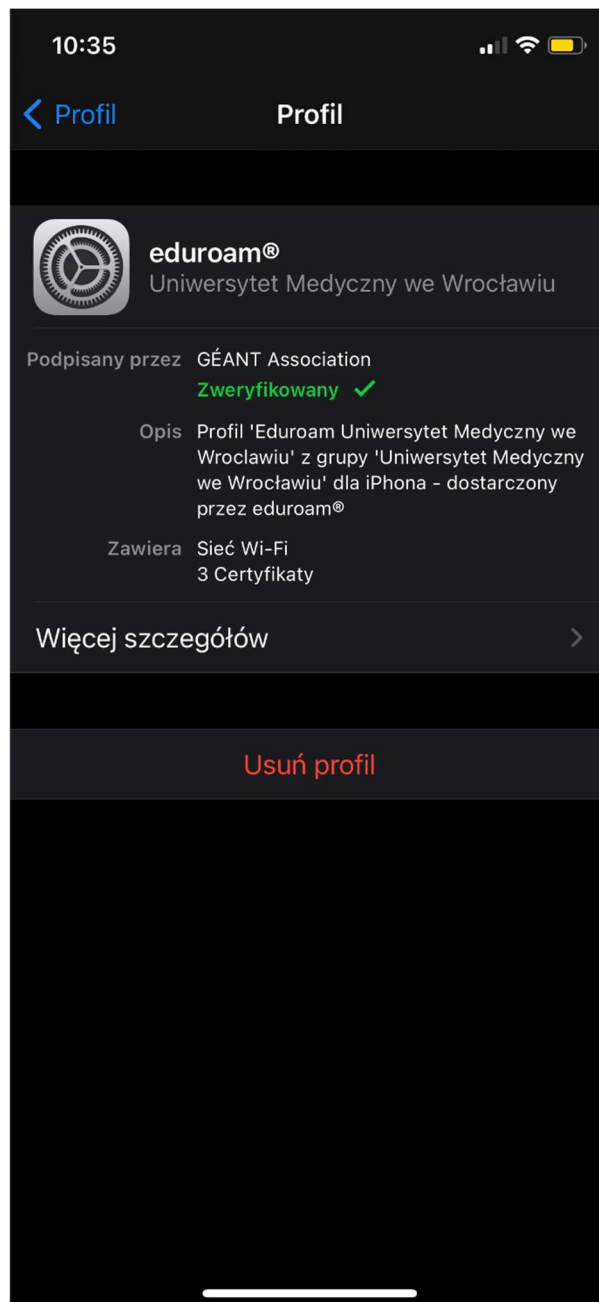

There may be differences depending on the device model.

Then you need to go to "profile"

Now select the "eduroam" profile and click "Delete profile"

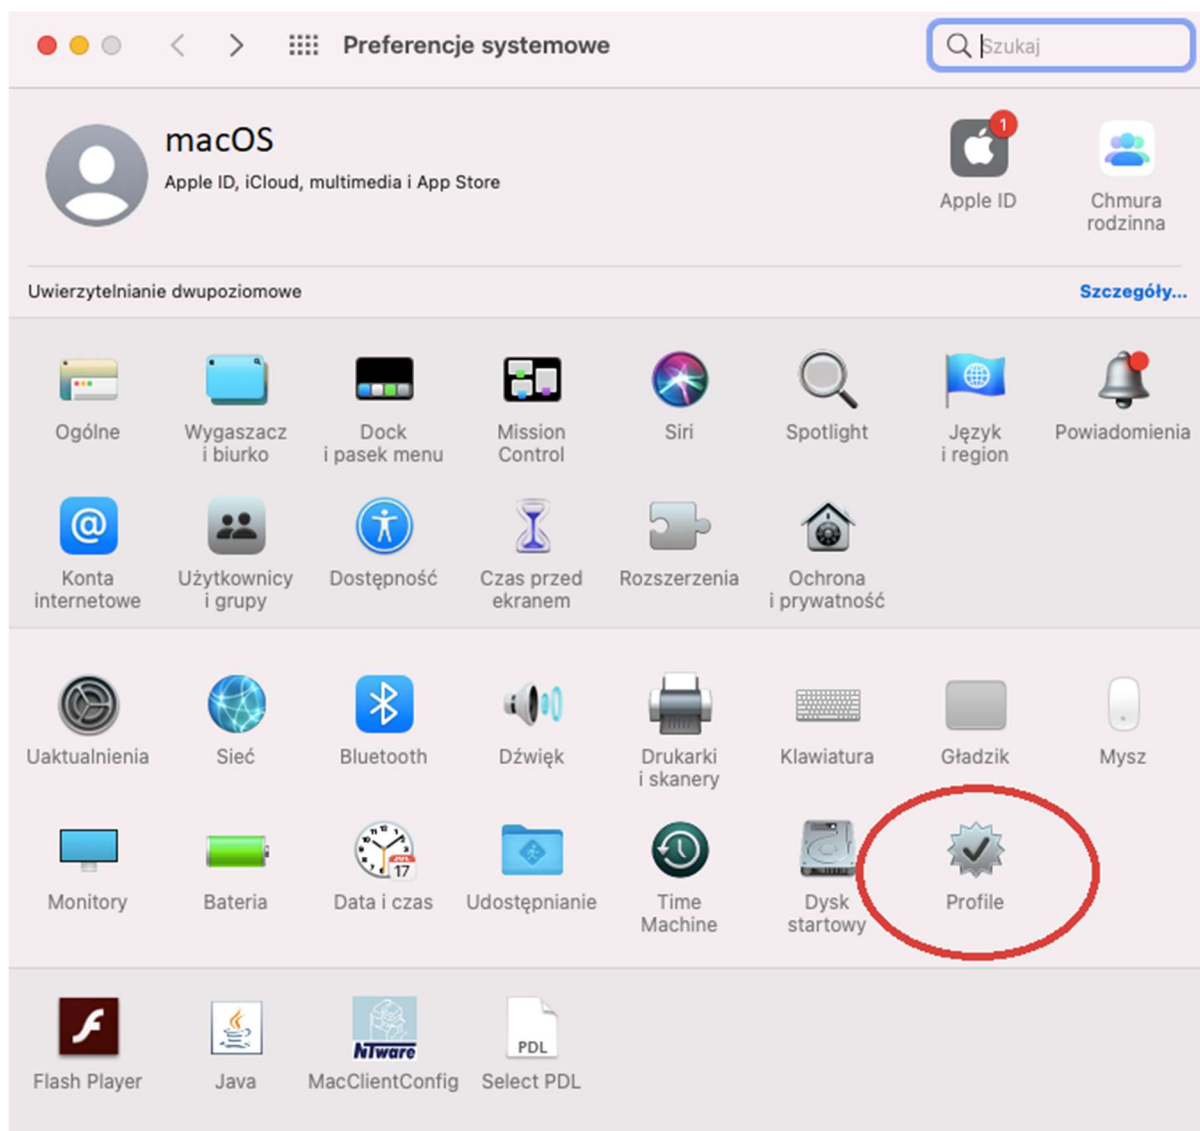

Confirm deleting by clicking "Delete"

Then you reconnect to the "eduroam" network as above.

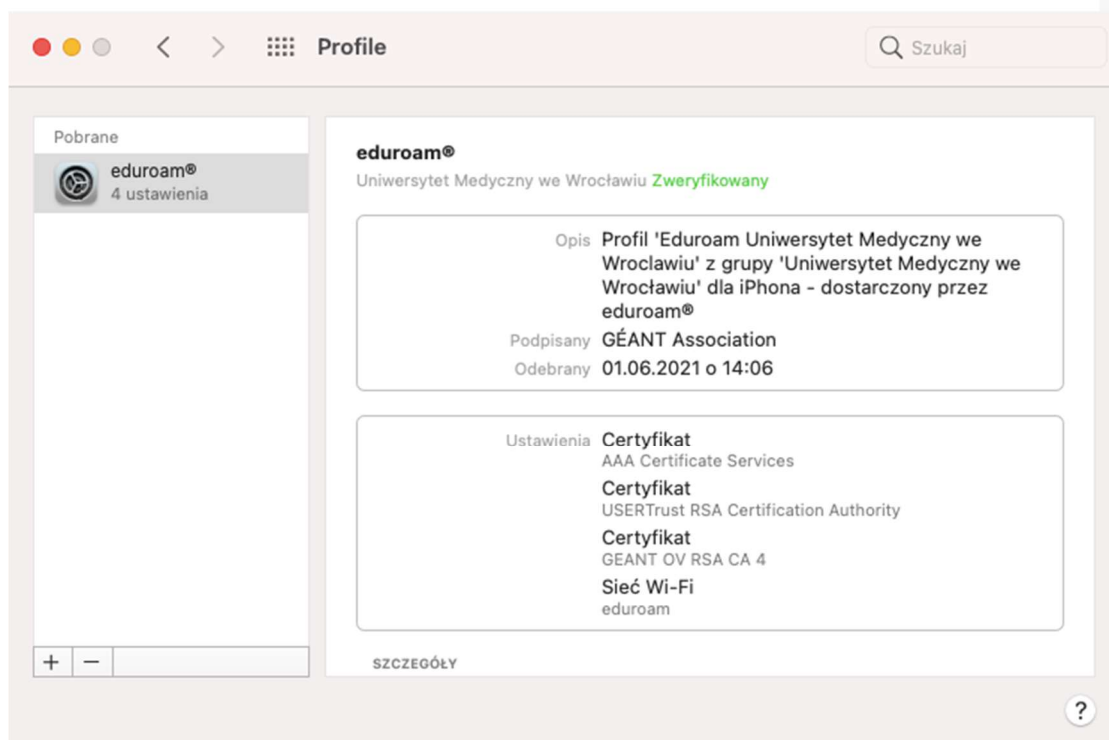

Instructions for configuring Eduroam connection – macOS system

Download the installer to the device from the website: <https://cat.eduroam.org/>
First, you need to run the installer, then enter the system preferences and run "profiles"

After launching, a window with the downloaded installer will appear. Click "Install..."

Then an authorization window will appear where you should enter the email address in the form of name.surname@umw.edu.pl in the user field or, in the case of a student, name.surname@student.umw.edu.pl and the password set during registration in the CSA system.

Podaj ustawienia dla „eduroam®”: Podaj ustawienia sieci z zabezpieczeniami Enterprise „eduroam”: Użytkownik: <input type="text" value="imie.nazwisko@umw.edu.pl"/> Hasło: <input type="password" value="....."/>	Podaj ustawienia dla „eduroam®”: Podaj ustawienia sieci z zabezpieczeniami Enterprise „eduroam”: Użytkownik: <input type="text" value="imie.nazwisko@student.umw.edu.pl"/> Hasło: <input type="password" value="....."/>
<input type="button" value="Anuluj"/> <input type="button" value="Poprzedni"/> <input type="button" value="Instaluj"/>	<input type="button" value="Anuluj"/> <input type="button" value="Poprzedni"/> <input type="button" value="Instaluj"/>

In the next step, the system may ask you to confirm the installation - enter the device administrator password.

Profiles/MDM chce dokonać zmian.

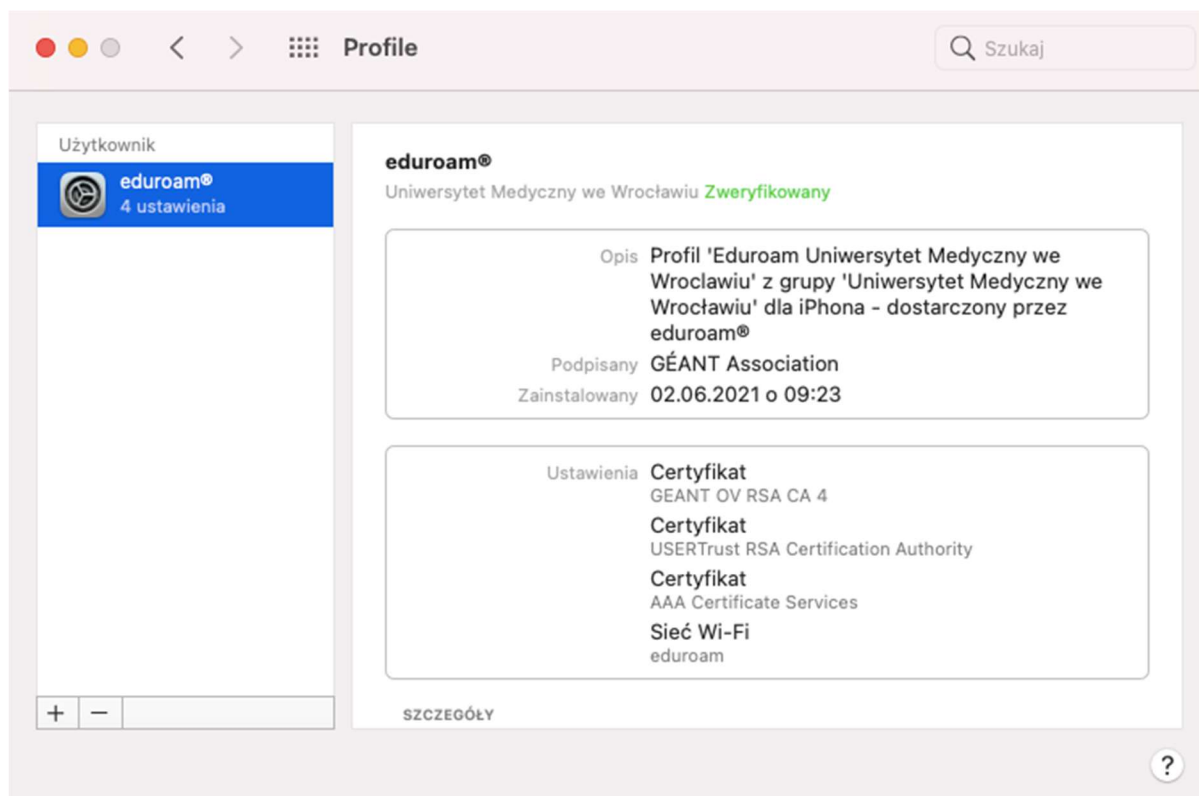

Wpisz hasło, aby na to pozwolić.

Użytkownik: macOS

Hasło: [maskowane]

Anuluj OK

If you have entered all the data correctly, the profile will be installed correctly - you will gain access to the eduroam network.

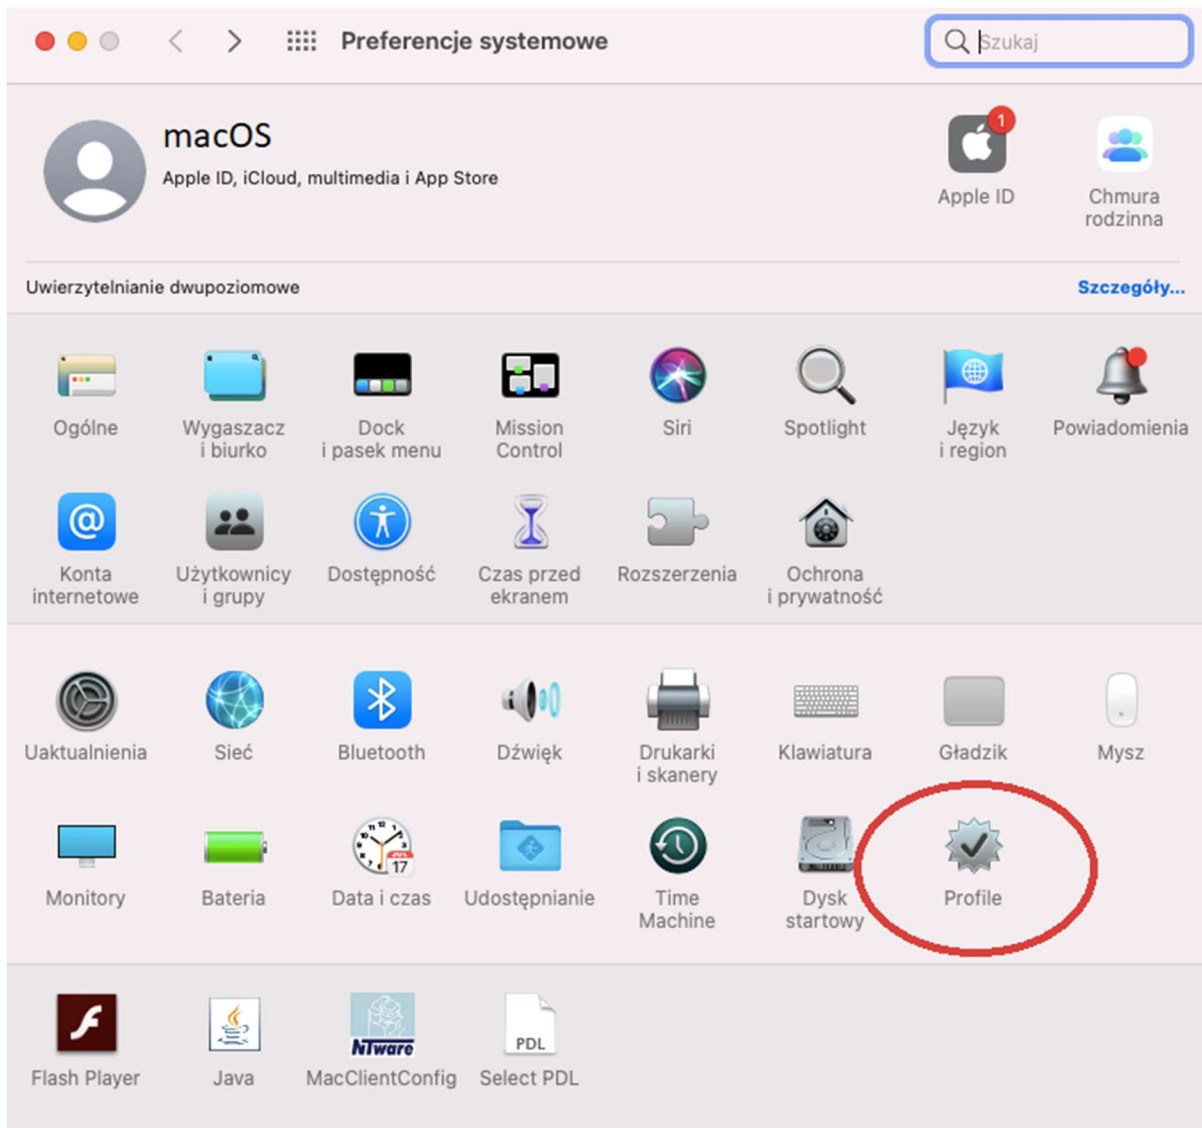

Connection reconfiguration

Before deleting the configuration, download the installer from the website:

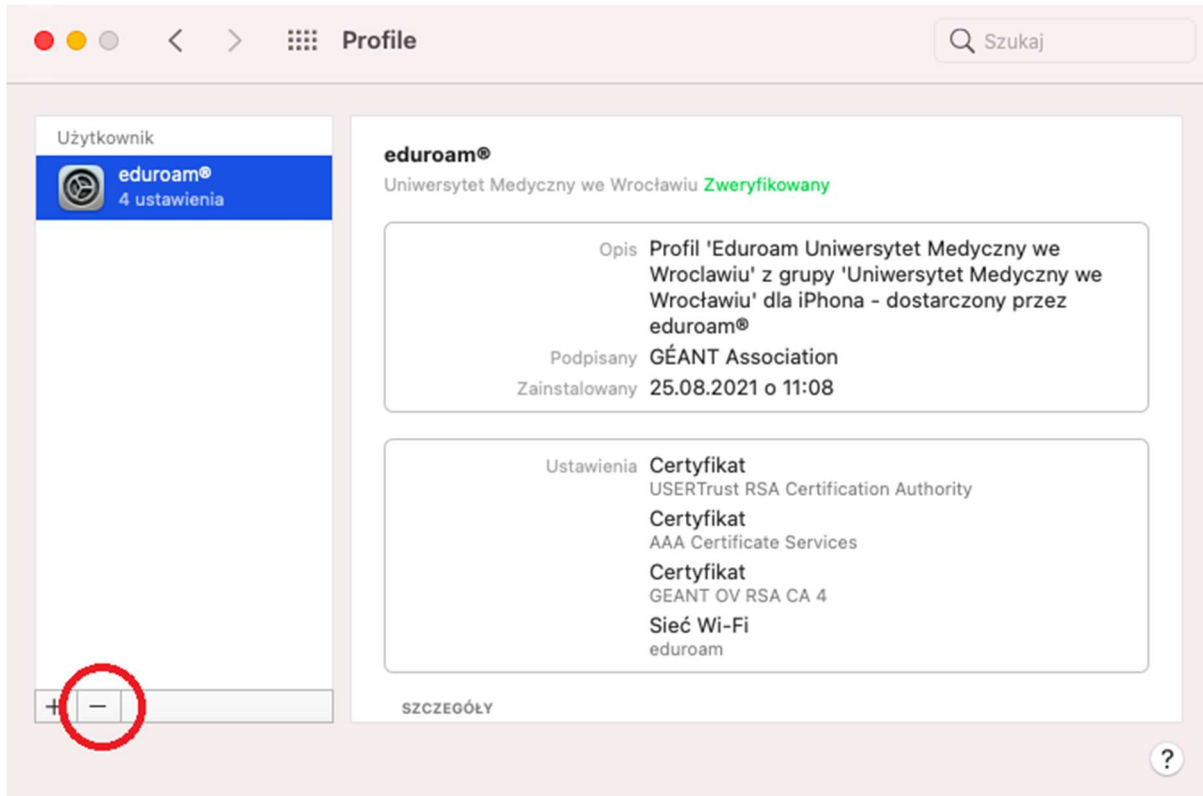

<https://cat.eduroam.org/>

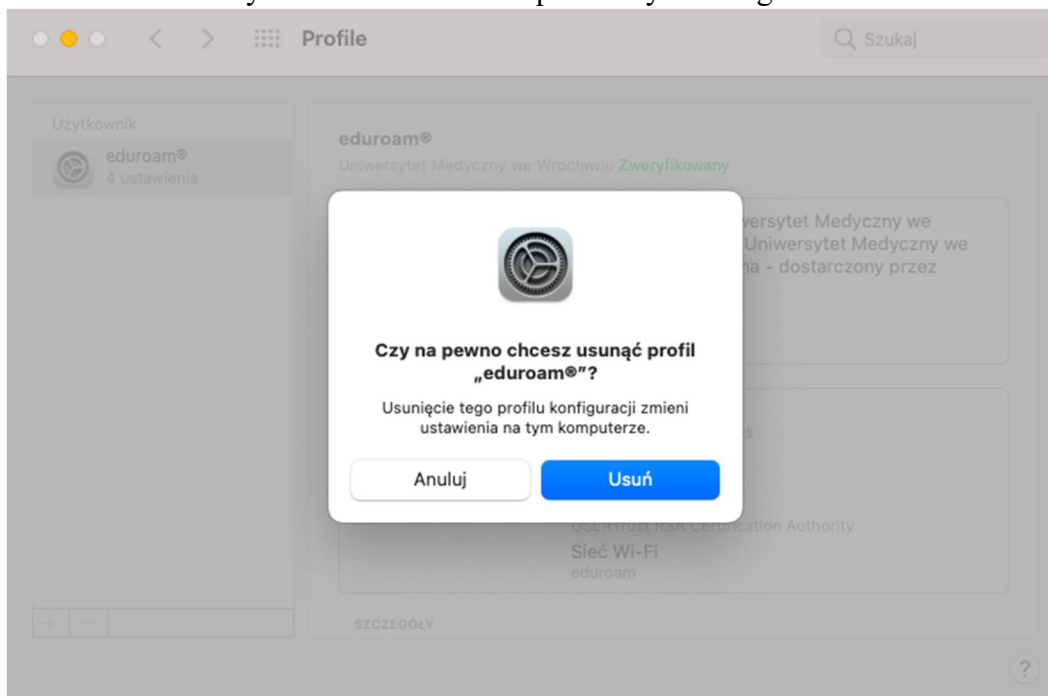

In order to connect to a new domain and new credentials, you must remove the saved network named eduroam from memory on your computer. To do this, go to System Preferences and then "Profiles".

You need to remove the installed "eduroam" profile, for this click "-" at the bottom of the window

Then confirm that you want to delete the profile by clicking the "Delete" button

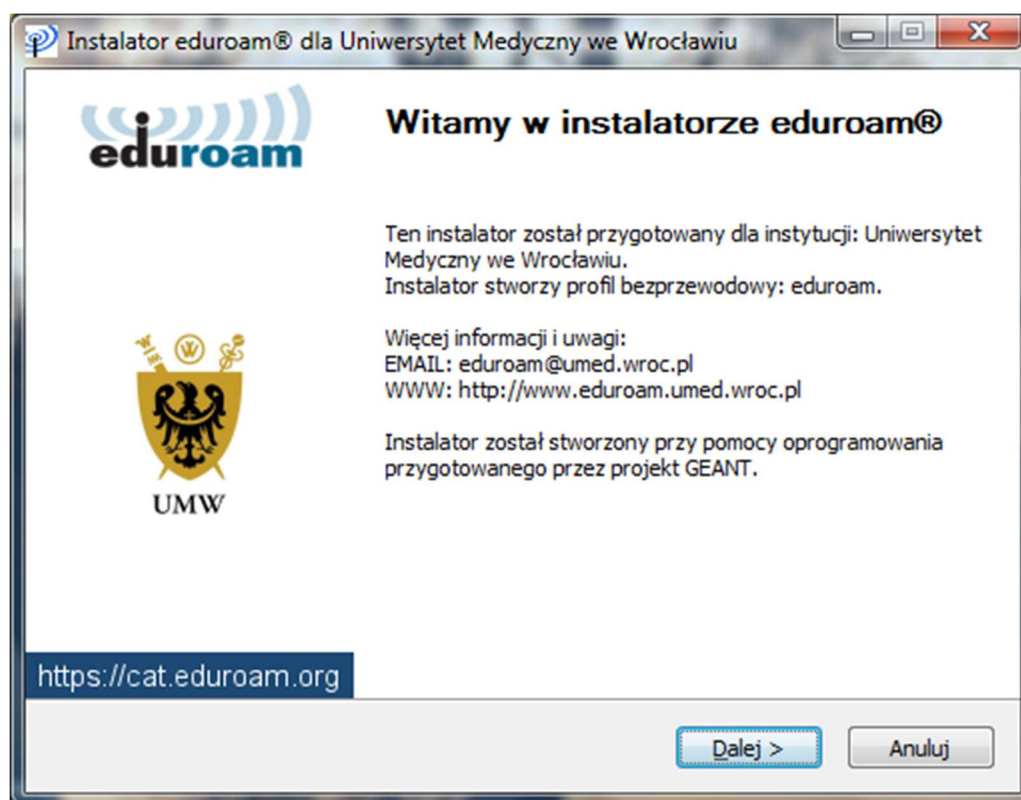

Then we reconnect to the "eduroam" network as above.

Instructions for configuring Eduroam connection - Windows 7 system

Download the installer to the device from the website: <https://cat.eduroam.org/>
First, you need to run the installer, then click the "Next" button

When we are informed with the message "This installer will work properly only if your home institution is Wrocław Medical University" We should click the "OK" button.

Then the authorization window will appear, where you should enter the full email address in the form of name.surname@umw.edu.pl in the user field or, in the case of a student, name.surname@student.umw.edu.pl and the password set during registration in the CSA system.

The image shows a Windows installer window titled "Instalator eduroam® dla Uniwersytet Medyczny we Wrocławiu". The window has a blue border and a standard Windows 7 window control bar. Inside, the title "Dane logowania" is at the top left, and the "eduroam" logo is at the top right. Below the title, there are three input fields: "Użytkownik:" with the text "imie.nazwisko@umw.edu.pl", "Hasło:" with a masked password "*****", and "Powtórz hasło" with a masked password "*****". At the bottom left, it says "Nullsoft Install System v3.04". At the bottom right, there are two buttons: "Zainstaluj" (highlighted with a blue border) and "Anuluj".

When you are informed about the need to install an additional GEANTLink library, you should click the "OK" button.

To complete the installation process, click the "Finish" button. At this point, you should already be connected to the Eduroam network.

Connection reconfiguration

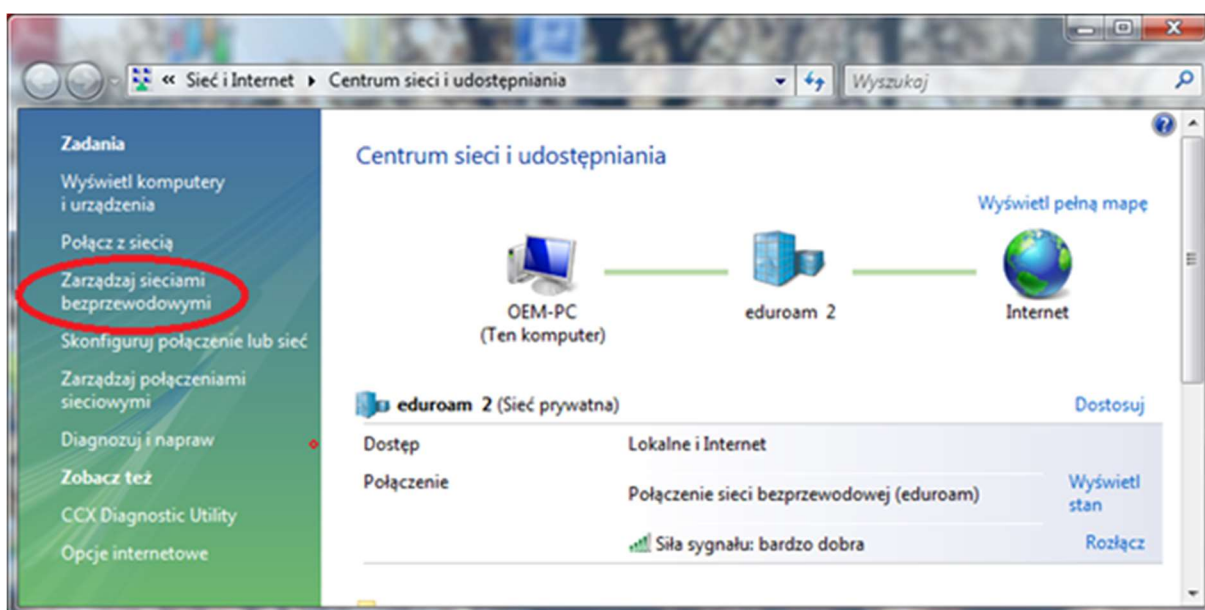

Before deleting the configuration, download the installer from the website:

<https://cat.eduroam.org/>

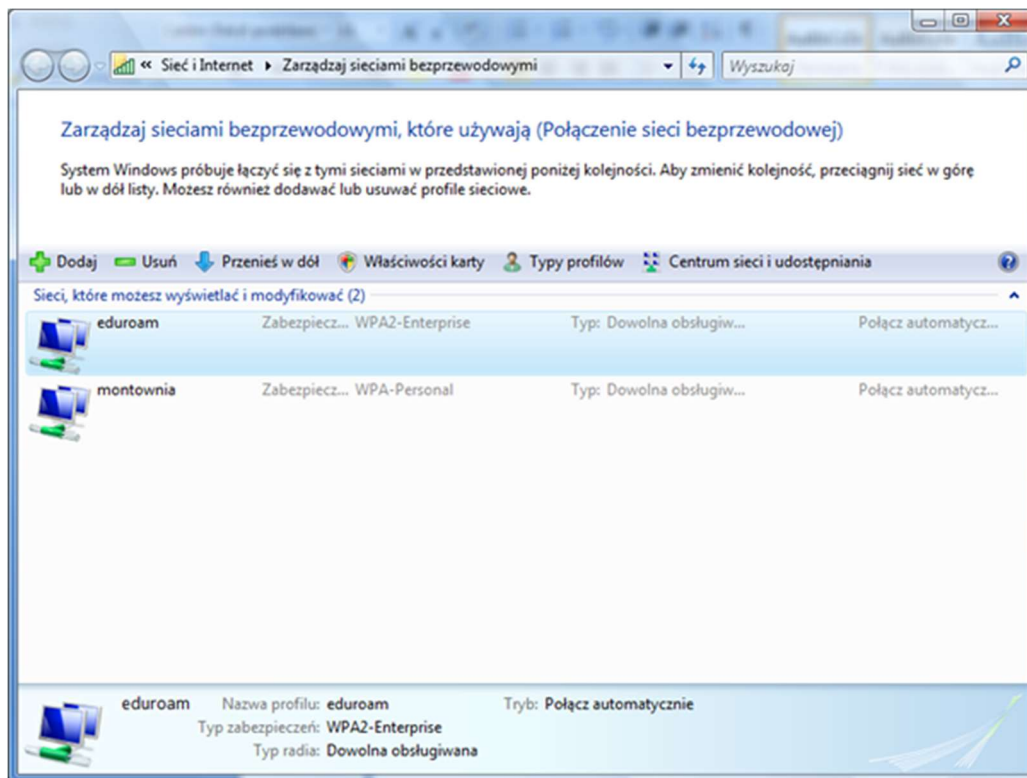

In order to connect to a new domain and new credentials, you must remove the saved network named eduroam from memory on your computer. To do this, click on the network icon (

) in the taskbar and select Open Network and Sharing Center. Then Click Manage Wireless Networks.

Right-click on the eduroam network, and select Delete Network.

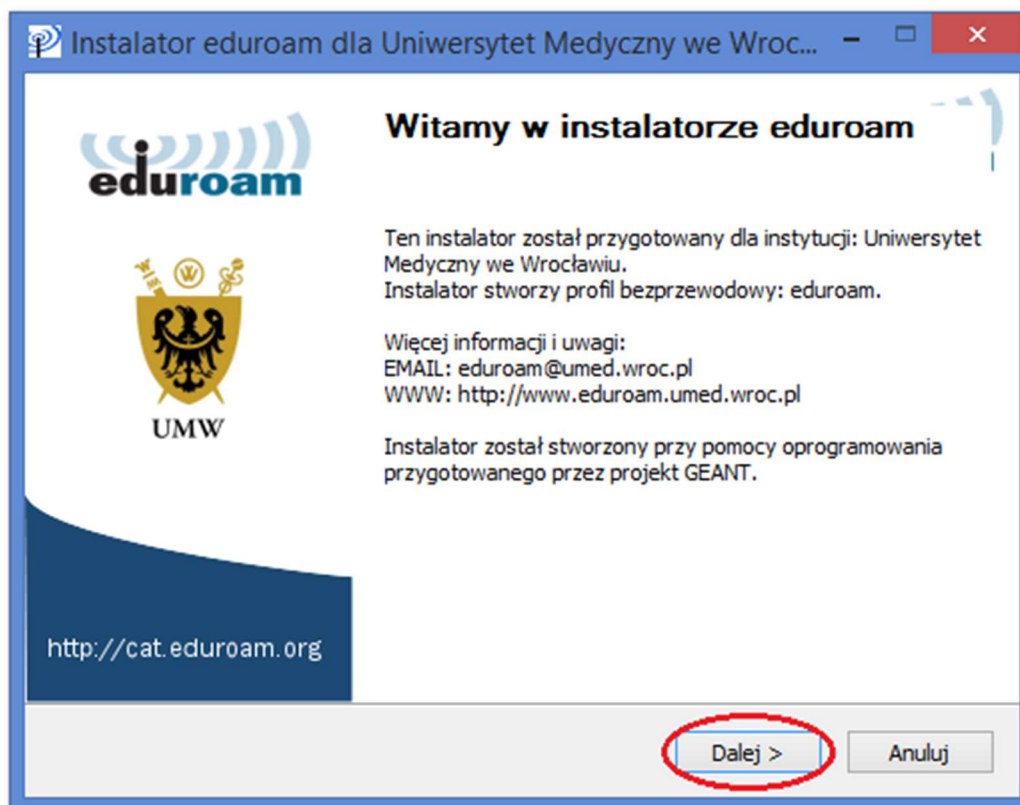

Then you reconnect to the "eduroam" network as above.

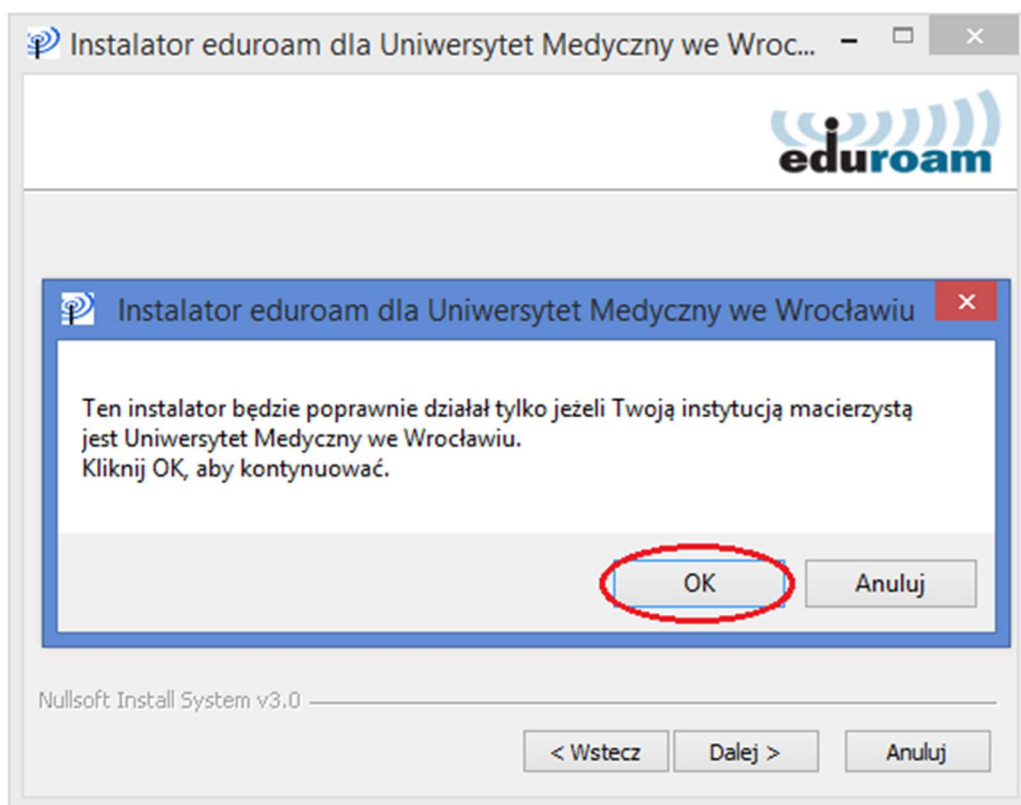

Instructions for configuring Eduroam connection - Windows 8 system

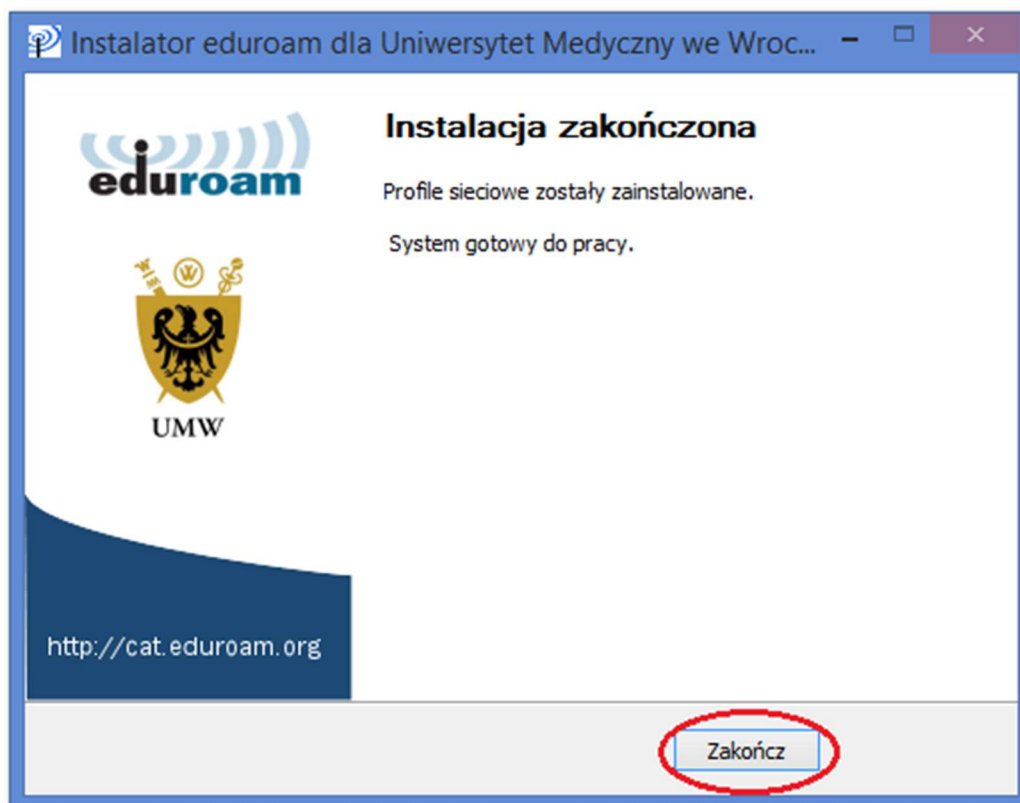

Download the installer to your device from the website: <https://cat.eduroam.org/>
First, we need to run the installer, then click the 'Next' button.

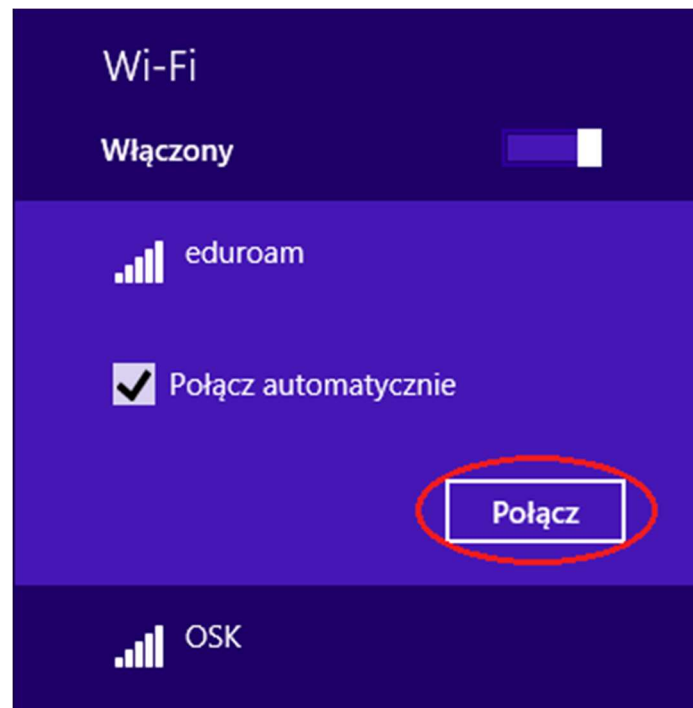

Click OK

If the installer is installed correctly, the following window will be displayed:

Now we need to connect to a wireless network called 'eduroam'. To view a list of wireless networks: Click the wireless network icon (📶) or point the mouse to the upper-right corner of the screen, move the mouse down, and then click the Settings panel. A screen with available networks will appear. Click on the 'eduroam' network and then on the 'Connect' button.

Then the authorization window will appear where you should enter the email address in the form of name.surname@umw.edu.pl or in the case of a student name.surname@student.umw.edu.pl and the password set during registration in the CSA system.

A Windows 8 login window with a dark blue background. At the top, it says "Zaloguj się" in white. Below is a white silhouette of a person. Underneath is a text input field with the placeholder "WPISZ uczelniany adres e-mail" and a red 'X' icon on the right. Below the email field is a password field with five dots and an eye icon. Under the password field, it says "Domena: umed.wroc.pl". At the bottom are two buttons: "OK" and "Anuluj". Both the email input field and the "OK" button are circled in red.

If you have entered all the data correctly, you will get access to the eduroam network.

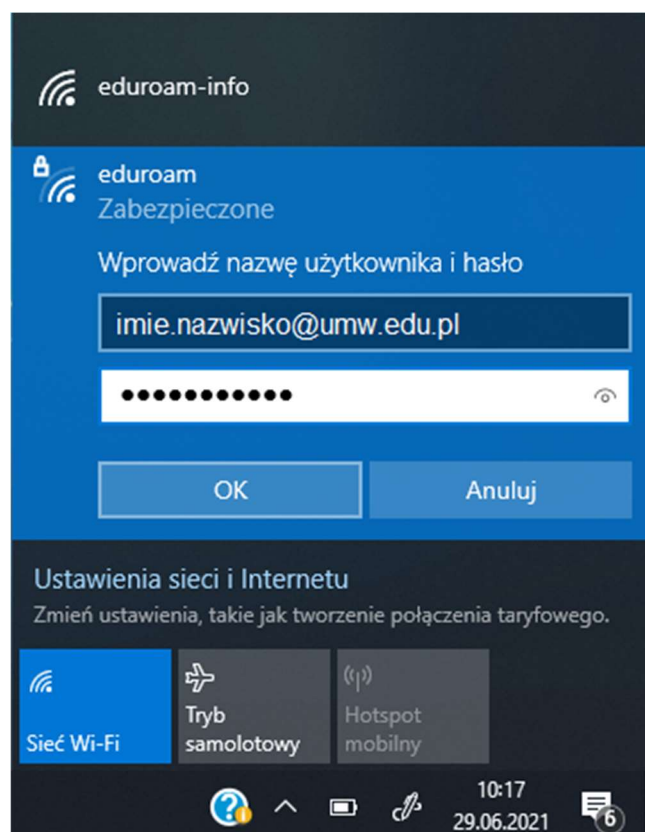

Instructions for configuring Eduroam - Windows 10 system

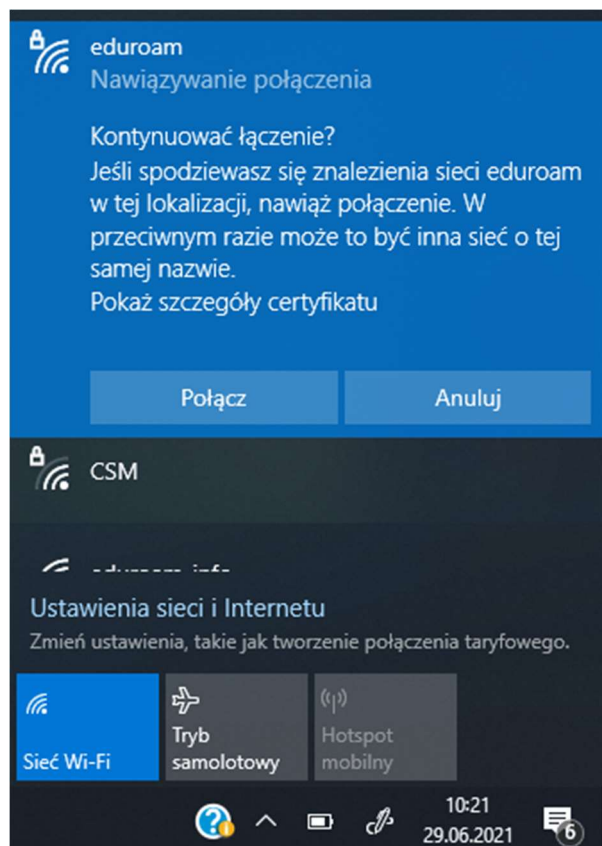

Click on the wireless network icon, a screen with available networks will appear. We select the network called "eduroam" and then click "Connect"

Then an authorization window will appear where you should enter the email address in the form of name.surname@umw.edu.pl in the user field or, in the case of a student, name.surname@student.umw.edu.pl and the password set during registration in the CSA system. Then click "OK"

In the next window, information about continuing the connection with the "eduroam" network will be displayed. Click the "Connect" button

If we have entered all the data correctly, we will get access to the eduroam network.
