

How can I find e-books in English?

There are several ways to get access to books online.

First way is to go to the library website bg.umw.edu.pl and select **e-resources** tab.

Choose **e-books**.

Here you will find a list of databases available in the library. Choose the database you are interested in and click **list of titles** located under the description.

English-language medical platform for researchers, clinicians and students collecting textbooks, case reports, drug descriptions, patient leaflets as well as a range of multimedia materials including anatomy atlas, lung and heart auscultation recordings, patient examination, tens of thousands of images and illustrations to aid in diagnosis (available to save and download for presentation for educational purposes) etc. Includes more than 150 leading medical textbooks, including the latest editions of the world's most respected publications such as Harrison's Principles of Internal Medicine and CURRENT Medical Diagnosis & Treatment.

[list of titles](#)

Selected English-language publications of An International Association for Medical Education on education in medicine and the scientist's workshop.

[list of titles](#)

A platform for accessing English-language textbooks from Elsevier Publishing. The "Bookshelf" feature, launched from an individual account, allows users to mark up text, create custom notes, user groups, etc. In addition, the platform features a collection of videos, illustrations and short summaries of topics. The database requires the creation of a separate Elsevier account.

[list of titles](#)

Use of the collection requires logging in
[Instructions for creating an account and its use](#)

Collection of Polish-language academic electronic textbooks for students and lecturers.

The other way is to use **Multisearch** tool located on the library website.

Select **e-resources** option, enter keyword, title or author and select **Search**.

The answers are presented in the form of a list.

Use the system suggestions or limit the results using the filters on the left. We recommend using the filters: **available in library collection, full text and ebooks.**

The screenshot shows a search results page for the term 'histology'. On the left, there are filters under 'Limit To' and 'Source Types'. The 'Limit To' section has checkboxes for 'Available in Library Collection', 'Catalog Only', and 'Full Text', with 'Full Text' selected. The 'Source Types' section has checkboxes for 'All Results', 'Academic Journals (2,344,794)', 'Magazines (28,688)', 'Reviews (9,034)', 'Books (6,302)', and 'eBooks (5,774)', with 'eBooks' selected. The main results area shows a list of publications. The first result is 'Perceptions of medical students towards the role of histology and embryology during curricular review.' The second result is 'Evaluation of the usage of YouTube videos about Histology and Embryology as an educational material.' Below the list, there is a section for 'Results from Video Providers (3 of 21)' with three video thumbnails. A red arrow points to the 'Full Text' button for the second result.
