

How can I find e-books in English?

There are several ways to get access to books online.

First way is to go to the library website bg.umw.edu.pl and select **e-resources** tab.

Choose **e-books**.

Here you will find a list of databases available in the library. Choose the database you are interested in. You can expand the details and read a short info about each database. Click on the database logo to go inside.

A platform for accessing Elsevier's collection of English-language textbooks. The "Bookshelf" feature, available through an individual account, allows users to highlight text, take notes, create user groups, and more. Additionally, the platform includes a collection of videos, illustrations, and concise topic summaries. Search results also index materials from the Osmosis platform, which is integrated with CK-Student. These materials also appear after completing quizzes as a way to test acquired knowledge. To access them, users must log in to their individual Osmosis account. Using CK-Student requires creating a separate Elsevier account and logging in – Instructions for setting up and using an account. Mobile Application: ClinicalKey Student Bookshelf
